NEWS RELEASE

**LINN ENERGY PROVIDES UPDATED FINANCIAL GUIDANCE,
NEW INVESTOR PRESENTATION
AND ISS RECOMMENDATION**

HOUSTON, December 3, 2013 – LINN Energy, LLC (NASDAQ: LINE) announced today that it is updating its fourth quarter 2013 guidance, posting a new investor presentation and announcing the recommendation of a leading independent proxy voting and corporate governance advisory firm.

UPDATED FINANCIAL GUIDANCE

LINN Energy, LLC (“LINN” or the “Company”) reiterates total estimated production during the fourth quarter to be between 840 MMcfe/d and 860 MMcfe/d, which includes the impact from recent severe winter weather in the Permian and Mid-Continent operating regions. Additionally, LINN increased its fourth quarter guidance for “excess of net cash”⁽¹⁾ to be approximately 5-10% above the Company’s current distribution, compared to prior guidance of zero percent above the Company’s current distribution. Both estimates do not include the anticipated positive impact from the pending merger with Berry Petroleum Company (“Berry”). During the quarter, production has remained on-track, NGL prices have continued to increase and the Company has continued to realize lower operating expenses, all of which have contributed to this updated fourth quarter guidance.

For the full-year 2013, LINN estimates production growth of 8-10%, which remains on-track with the previous guidance provided by the Company.

(1) Excess (shortfall) of net cash provided by (used in) operating activities after distributions to unitholders and discretionary adjustments considered by the Board of Directors.
